

CPRO
2010

Journées optométriques

May 21 and 22, 2010

Université de Montréal — pavillon Roger-Gaudry

2900 Édouard-Montpetit Blvd., Montréal, Québec

Centre de perfectionnement et de référence en optométrie

www.cpro.ca

Presentation abstracts are available at www.cpro.ca

Due to the large number of speakers, there will be no printed handouts. Some presentations will be available online on our website after the conference.

Friday, May 21, 2010

8:45-10:15 am

You have a choice between 3 clinical sessions

Session 1 — 1.5 CE units in General Optometry

Binocular Vision and Pediatrics

Vision Development in Infants

François Vital-Durand, PhD

Neurological Examinations in Optometry

Marie-Ève Corbeil, OD, MSc, Danielle de Guise, OD, MSc, Mariline Pageau, OD et Andrée Raymond, OD

Session 2 — 1.5 CE units in General Optometry

Ophthalmic Optics

Presentation of the Ophthalmic Optics Mini-guide

Guillaume Carcenac, PhD Candidate

What to do About Progressive Lens Non-Adaptation

Jean-Marie Hanssens, OD, PhD (c)

Reasons for Progressive Lens Non-Adaptation

Guillaume Giraudet, PhD

Nature and Management of Ophthalmic Lens Optical Aberrations

Nicolas Fontaine, OD, MSc

Comparison of Ophthalmic Materials and Treatments of the Most Popular Lenses in Ophthalmic Optics

Benoît Frenette, OD, MSc

Session 3 — 1.5 CE units in General Optometry

Low Vision and Rehabilitation

Development of Spatial Navigation skills in the Blind: A Clinical and Neuroscientific Approach

Lotfi Merabet, OD, PhD

Vision Rehabilitation –They Don't Know – They Don't Go: Breaking down the Barriers for Visually Impaired People

Olga Overbury, PhD

Impact of anti-VEGF Therapy for Exudative Macular Degeneration on Visual Rehabilitation Services

Julie-Andrée Marinier, OD, MSc

Research in Visual Deficiency Intervention

Marie-Chantal Wanet-Defalque, PhD

Rehabilitation and Professional Training in Québec Universities

Julie-Anne Couturier, MA, MSc

10:45 am - 12:45 pm

You have a choice between 2 clinical sessions

Session 4 — 2 CE units in Ocular Health

Ocular Health and Primary Care

New Investigative Techniques, Products and Applied Research in Ocular Health and Primary Care. Eight 15-minute case reports

Julie Brûlé, OD, Yvon Rhéaume, OD, Fadi Maroun, OD, Régina Bizzarro, OD et collaborateurs

Session 5 — 2 CE units in General Optometry

Contact Lenses

Clinical Cases. Eight 15-minute case reports

Langis Michaud OD, MSc, Daniel Brazeau, OD, Frédéric Gagnon, OD, Nathalie Trottier, OD et collaborateurs

1:45-3:15 pm

Research Milestones at the École

Part 1 — 1.5 CE units in Ocular Health

Scientific research at the École d'optométrie—a well-kept secret
Presentation of current research by research professors

Prevention of Visual Deficits and Vision Restoration

Elvire Vaucher, PhD

Vision Sciences at the Service of Tissue Engineering: Toward the Reconstruction of a Transparent Cornea Using Various Corneal Cell Phenotypes

Claude Giasson, OD, PhD

Investigation and Diagnosis by Light Reflected by the Eye Fundus

Vasile Diaconu, PhD

Regeneration of the Visual Nervous System: Repairing the Irreparable

Jean-François Bouchard, BPharm, PhD

3:30-5:30 pm

OOQ and AOQ General Assemblies

6:00-7:30 pm

Cocktail hour at the École d'optométrie

Saturday, May 22, 2010

8:15-10:15 am

Spotlight on Our Alumni

Part 1 — 1 CE unit in General Optometry and 1 CE unit in Ocular Health

Presentations by École d'optométrie alumni, researchers, physicians and professors

Applying the Optometrist's Expertise to Clinical Reasoning

Caroline Faucher, OD, PhD

Correcting Presbyopia with Multifocal Intraocular Lenses: Does Your Client Know More than You?

Nadia Marie Quesnel, OD, MSc

One Hundred Years...Without Tears? What's New in Tear Analysis?

Etty Bitton, OD, MSc

Update on the Research Protocol for Fabry Disease and other Lysosomal Storage Disorders

Langis Michaud, OD, MSc

Glaucoma Diagnosis and New Technologies

Pierre Forcier, OD, MSc

Optometry in the Genomic Era: The Next Phase?

Robert Wojciechowski, OD, MSc, PhD

10:45 am - 12:15 pm

Spotlight on Our Alumni

Part 2 — 1.5 CE units in Ocular Health

Retinal Detachment

Sébastien Olivier, OD, MD

Retinopathy of Prematurity

Chantal Boisvert, OD, MD

Co-management

Angèle Devaux, OD, MD, and Karl Brousseau, OD

Diplopia

Sylvain Lanthier, OD, MD, CSPQ

1:00-2:30 pm

Research Milestones at the École

Part 2 — 1.5 CE units in Ocular Health

Vision and the Early Stages of Old Age

Hélène Kergoat OD, PhD

Optical Imagery, a Vital Tool for Studying the Structure and Function of the Retina and the Visual Brain

Christian Casanova, PhD

A Taste for Seeing: The Tongue as Sight Organ

Maurice Ptitto, PhD

Using Immersive Systems and Virtual Reality to Study Vision and Its Impact on Human Behaviour

Jocelyn Faubert, PhD

2:45-4:00 pm

100 years in the Making: The École's Past, Present and Future

Jacques Gresset and collaborators

6:30 pm

Dinner show at Windsor Station
